

PICTURE BLOCKS

These pictures were taken from Bible Story Concept for Toddlers

© 2002 by Jodi VanBibber, Sunny Hollow Press

Included in this packet are six pictures with which to make one block. These pictures begin below and continue on the next page.

The toddler set includes 48 pictures covering a wide variety of things in which young children are interested: animals, food, toys, and things we see around the house and outdoors. These will make eight blocks.

Playing with the blocks gives you lots of opportunities to talk about the pictures and relate them to the Bible Stories.

Print the pictures in color on cardstock.

Cut out and use as directed in the enclosed article: Making and Using The Picture Blocks.
